water) 7. deep water zone of ocean 8. bottomless zone, deepest part of ocean 9. shore zone of lake 10. type of tree in which the leaves fall off 11. small surface of the Earth,

Answer Key - Berkeley Heights Public Schools

the biosphere is the portion of Earth that is inhabited by life. The biosphere is the part of Earth where life exists. All of Earth's eco systems, taken together, form the biosphere. If you could remove all the nonliving parts of the biosphere—all the water, air, rocks, and so on—you would be left with the biota.

Correction Key=A DO NOT EDIT--Changes must be made through ...

The biosphere is the portion of Earth that is inhabited by life. Everything that lives on Earth, and every place where those things live, is part of the biosphere. The biosphere includes all of the living and nonliving parts of all of
