Hypnosis and the Mind - The Art of Changing Behavior

Neuro Linguistic Programming (NLP) is a pseudoscientific way to deal with correspondence, self-awareness, and psychotherapy made by Richard Bandler and John Grinder in California, United States during the 1970s. NLP's makers guarantee there is an association between neurological procedures (neuro-), language (semantic) and standards of conduct learned through understanding (programming), and that these can be changed to accomplish explicit objectives throughout everyday life.

What is NLP Therapy, Techniques and It's ... - Hypnosis Minds

Hypnosis is a trance-like state that's characterized by extreme relaxation, increased suggestibility, and heightened imagination. It is not completely understood how hypnosis works, but here are a few prevailing theories. Hypnosis may work by changing electrical patterns of brain function known as brain waves.
