NATO - STANAGs

Standardization Agreements (STANAGs) A STANAG is a normative document that records an agreement among several or all NATO member states – ratified at the authorized national level – to implement a standard, in whole or in part, with or without reservation.

NATO - e-Library

In NATO, a Standardization Agreement (STANAG, redundantly: STANAG agreement) defines processes, procedures, terms, and conditions for common military or technical procedures or equipment between the member countries of the alliance. Each NATO state ratifies a STANAG and implements it within their own military. The purpose is to provide common operational and administrative procedures and ...

NATO NATO STANDARDIZATION AGENCY OTAN

A STANAG magazine or NATO magazine is a type of detachable firearm magazine proposed by NATO in October 1980. Shortly after NATO's acceptance of the 5.56×45mm NATO rifle cartridge, Draft Standardization Agreement 4179 was proposed in order to allow NATO members to easily share rifle ammunition and magazines down to the individual soldier level. The U.S. M16 rifle's magazine proportions were ...
