Origami Insects Easy Fun Paper

Realistic origami insects are hard to make because insects have so many legs. Not to mention, some bugs have prominent antennae, pincers, and appendages. A square sheet of paper, has 4 corners, so it is easy to make things with 4 segments. Making things with more than 4 segments is harder.

Origami Insects : Instructions

Origami Insects Anyone who has tired to make an origami insect will find that they can get pretty complicated! The reason this is so is because bugs have many appendages. These include three body parts, six legs, two antennae, two or more bug eyes, and specialized structures such as stingers, pincers, and mouth pieces.
